Procedure Kits Packaging Trays

NewGen Surgical offers a selection of plant-based trays that eliminates plastic waste in procedure kit packaging.

Sustainable Design

- Made with plant-based material
- Less plastic produced and discarded
- Free of intentionally added BPA or BPA derived plastics, mercury, phthalates, and PVC
- Able to decompose; rate dependent on disposal conditions
- Over two tons of plastic waste can be eliminated for every 15,000 medium-sized trays; be part of our *Small Change, Big Impact EPP* program

Product Details

- Similar durability and strength as current packaging trays
- Smooth edges that maintain the integrity of wraps, pouches, and bags
- Thick corners that do not crack or break
- EO sterilizable
- Latex free
- Sizes can be customized per your requirements

Product Code	Description	Units of Measure
NGSPT1512-100NS	Procedure kit packaging tray, medium shallow, 15" x 12.5" x 0.8" interior, 16" x 13.5" x 0.8" exterior, non-sterile, EPP/Sustainable	100 ea / cs
NGSPT1814-100NS	Procedure kit packaging tray, large shallow, 18" x 14" x 0.5" interior, 19" x 15" x 0.5" exterior, non-sterile, EPP/Sustainable	100 ea / cs
NGSPT2015-100NS	Procedure kit packaging tray, extra large shallow, 20" x 15" x 0.9" interior, 21" x 16" x 0.9" exterior, non-sterile, EPP/Sustainable	100 ea / cs

About NewGen Surgical

NewGen Surgical, Inc. develops and manufactures sustainably designed, single-use medical devices and products. NewGen Surgical's mission is to minimize plastic waste in the O.R. by redesigning disposable products. NewGen Surgical offers hospitals and surgery centers a solution to their sustainability programs and meet Environmentally Preferable Purchasing (EPP) objectives.

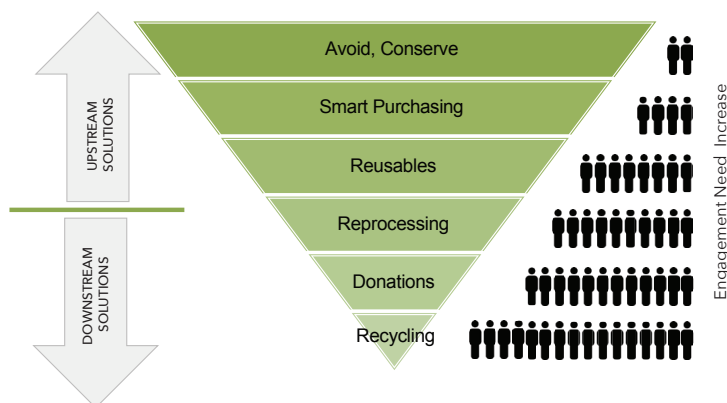

Smart Sustainable Design™

By rethinking and redesigning disposable single-use surgical products used every day in the operating room, NewGen Surgical reduces or eliminates plastic waste while still delivering clinical performance at a price that brings value to our customers.

Smart Sustainable Purchasing™

Smart sustainable procurement is a key success factor in delivering the human health benefits of an EPP policy and one of the best approaches in aligning hospital purchasing with sustainability and community needs initiatives. Addressing source reduction at the surgical kit level is an upstream solution that has a big impact on eliminating plastic waste with one of the lowest conversion costs. The investment of time and training are minimal when a similar single-use disposable surgical product is switched to one made with sustainable material.

Small Change, Big Impact

Join our *Small Change, Big Impact EPP™* program and make a measurable commitment to reduce your plastic waste. This program tracks your use of NewGen Surgical's sustainably designed, single-use medical devices and products and provides healthcare leaders a platform to measure the reduction of plastic waste generated from their hospital or system. Every piece of plastic matters. Working together we can make a measurable impact.

a NewGen Surgical EPP program

A climate-smart commitment to reduce plastic waste in healthcare.
