Two-Compartment Tray

Made from bagasse, a by-product from sugar cane production

PLANT BASED

Sustainable Design

- Bio-based material
- Plastic reduction by weight
- Reduces CO_2e
- Free of intentionally added BPA or BPA-derived plastics, mercury, phthalates, and PVC
- PFAS-free

Clinical Performance

- Designed for use in procedures to hold fluids and medical supplies
- Coated with biocompatible film
- Durable and strong
- EO Sterilizable
- Validated to hold solutions up to 12 hours (see chart on back)

Product Resources

USDA CERTIFIED BIOBASED PRODUCT PRODUCT 88%

NGS Product Code	Description	Units of Measure
NGS2CT-250NS	Tray, two-compartment, 8.50" × 4.25" × 1.88", non-sterile, EPP/sustainable Tray, two-compartment, 21.59 × 10.80 × 4.78 cm non-sterile, EPP/sustainable	250 ea/cs
NGS2CTC-250NS	Tray, coated, two-compartment, 8.50" × 4.25" × 1.88", non-sterile, EPP/sustainable Tray, coated, two-compartment, 21.59 × 10.80 × 4.78 cm non-sterile, EPP/sustainable	250 ea/cs

Claims are based on weight when compared to a similar product made with plastic. Reductions are verified through NewGen Surgical's Small Change, Big Impact (SCBI) EPP Program. Bio-based material percentage is tested and verified through the USDA BioPreferred Program; contact NewGen Surgical for additional information.

The NewGen Surgical Two-Compartment Tray is manufactured from bagasse, a post-agricultural by-product of sugar cane production. The inner surface is laminated with a biocompatible film; exterior surfaces of the coated trays have a medical-grade biocompatible coating.

Intended Use

The two-compartment tray is a plant-based, single-use O.R. accessory designed to hold fluids and instruments during a surgical procedure.

To ensure performance, do not submerge in water or other liquids. Do not use excessive force.

The two-compartment tray is manufactured for single-use only.

Do not reuse, reprocess, or resterilize. Reuse, reprocessing, or resterilization may compromise the structural integrity of the tray and/or lead to tray failure. Compatible with EO sterilization.

	PVC-free
	Latex-free
	DEHP-free

	Do not resterilize
	Do not reuse
